In 2017 a number of Finals formats changed with the number of shots being increased. New records will therefore appear where this has happened. At the same time the terminology "Games Record" ("GR") was applied to the scores achieved solely in Finals (replacing "Finals Games Record" ("FGR")). In events without Finals (eg: 50m Free Pistol), GR still applies to what would otherwise be the Qualification Round. Finals do not apply in team events except in the 10m Air Pistol Mixed Team (if included in the programme), which has no separate Individual component.

NOTES

From 2017 the Finals format changed in 10m Air Rifle and 50m Prone Rifle. The number of shots increased from 20 to 24. Consequently, new records appeared in 2017 for these events. At the same time the terminology "Games Record" ("GR") was applied to the scores achieved solely in Finals (replacing "Finals Games Record" ("FGR")). In events without Finals (eg: 50m Rifle Prone), GR still applies to what would otherwise be the Qualification Round. Finals do not apply in team events except in the new 10m Air Rifle Mixed Team, which has no separate Individual component.
