The ranking system will take into account the finishing position from the last three Games. Points for the three Games will be added together for a team's total. Ranking will be determined based on a team's total, highest total being awarded first place. The final ranking will be what is entered into the Serpentine System to determine the round-robin playing pools. Any team not participating in any of the three previous Games will receive zero points. Any new Member Island entering Volleyball will be placed at the bottom of the ranking list with zero points. In the event of a points tie the results from the last Games will determine which team receives the higher ranking. Only officially sanctioned games will be used when calculating the team rankings.

### **2.5.1 Draws**

The Serpentine system is the recommended seeding system for the Games. The qualifying groups will be set up based on the results of the Ranking System (see 2.5) and follow the serpentine system as shown below.
